

Airport Leadership Workshop (ALW)

Professional Certificate Course

Delivery: Classroom

Duration: 3 days

Aim

This programme provides an interactive forum where airport professionals can develop quality leadership competencies in preparation for future roles in executive leadership positions.

Learning Objectives

Upon completing this course, participants will be able to:

- Have a more clear understanding of strengths and personal leadership brand
- Develop more effective communication and conflict resolution skills
- Enhance their ability to develop strong teams and healthy culture within their respective departments

Target Audience

This programme is intended for airport managers, airport operations and supervisory personnel.

Programme Structure

The objectives of this three day leadership workshop are to:

- Develop quality leadership competencies in preparation for future roles in executive leadership positions.
- Discuss current challenges in airport management.
- Participate in case-based activities that present both fundamental leadership skills and their application to the airport environment
