

Professional Certificate Course

Course Name **Airport Routes Development**

Delivery *Virtual Class / Online* 5 days (3 hours per day)
 Onsite / Classroom 3 days (8 hours per day)

About the Course

Understanding the role of airports in the global aviation environment, and how to attract new airlines and to develop the current route structure by increasing the frequencies and/or destinations served.

Learning Objectives

Upon completion of this course, participants will be able to:

- Evaluate the airports and their functioning from a commercial perspective.
- Assess the current capacity and any constraints that could impede on the airport development.
- Analyze the route structure and apply a methodology to identify new route opportunities.

Target Audience

The target audience for this course is any airport staff involved in the commercial development of the airport, including the heads of the respective departments.
