

Professional Certificate Course

Course Name **Aerodrome Certification**

Delivery *Virtual Class / Online* 4 days (3 hours per day)
 Onsite / Classroom 4 days (8 hours per day)

About the Course

ICAO’s International Standards and Recommended Practices (SARPs) detailed in Annex 14 and Doc 9774, state that all aerodromes should be certified by the State and licensed for use. This course explains the certification process applied by State regulators and what aerodromes must do to not only become “certified” but to remain certified as traffic grows and the aerodrome expands to accommodate future traffic demand.

Learning Objectives

Upon completion of this course, participants will be able to:

- A National Authority’s (NAA) aerodrome certification system and processes
- Assessing the certification application including Aerodrome Manual
- The NAA oversight system including planning and assessment of aerodrome complexity and risk
- Planning and conducting audits with reporting and follow up
- Change management at aerodromes
- How National Authority’s (NAA) manages non-compliances and assessment of safety assurance
- explain how certification enhances safety and brings efficiency.
-
-
